The International Journal of Aquatic Sciences

Volume 540, 15 May 2005

Special Issue

Ecological Structures and Functions in the Scheldt Estuary: from Past to Future

Guest Editors

P. Meire & S. van Damme

Introductory Paper

The Scheldt estuary: a description of a changing ecosystem
P. Meire, T. Ysebaert, S. Van Damme, E. Van den Bergh, T. Maris, E. Struyf 1–11

Review

The food web in the lower part of the Seine estuary: a synthesis of existing knowledge
J.-C. Dauvin, N. Desroy 13–27

Primary Research Papers

Spatial and temporal patterns of water quality along the estuarine salinity gradient of the Scheldt estuary (Belgium and The Netherlands): results of an integrated monitoring approach
S. Van Damme, E. Struyf, T. Maris, T. Ysebaert, F. Dehairs, M. Tackx, C. Heip, P. Meire 29–45

Nutrient fluxes and water quality in the drainage network of the Scheldt basin over the last 50 years
G. Billen, J. Garnier, V. Rousseau 47–67

Freshwater marshes as dissolved silica recyclers in an estuarine environment (Schelde estuary, Belgium)
E. Struyf, S. Van Damme, B. Gribsholt, P. Meire 69–77

Suspended matter in the Scheldt estuary
M.S. Chen, S. Wartel, B. Van Eck, D. Van Maldegem 79–104

Influence of changes in salinity and light intensity on growth of phytoplankton communities from the Schelde river and estuary (Belgium/The Netherlands)
M. Lionard, K. Muylaert, D. Van Gansbeke, W. Vyverman 105–115

Changes in phytoplankton biomass and primary production between 1991 and 2001 in the Westerschelde estuary (Belgium/The Netherlands)
J.C. Kromkamp, J. Peene 117–126

Phytoplankton growth rates in the freshwater tidal reaches of the Schelde estuary (Belgium) estimated using a simple light-limited primary production model
K. Muylaert, M. Tackx, W. Vyverman 127–140

Overview of trace metal contamination in the Scheldt estuary and effect of regulatory measures
W. Baeyens, M. Leermakers, M. De Gieter, H.L. Nguyen, K. Parmentier, S. Panutrakul, M. Elskens 141–154

Geochemical composition of sediments in the Scheldt estuary with emphasis on trace metals
M. Bouezmarni, R. Wollast 155–168

Temporal and spatial trends in heavy metal concentrations in the marine mussel *Mytilus edulis* from the Western Scheldt estuary (The Netherlands)
V.K. Mubiana, D. Qadah, J. Meys, R. Blust 169–180

Seasonal variation of floc characteristics on tidal flats, the Scheldt estuary
M.S. Chen, S. Wartel, S. Temmerman 181–195

Benthic variability in intertidal soft-sediments in the mesohaline part of the Schelde estuary
T. Ysebaert, M. Fettweis, P. Meire, M. Sas 197–216

Laboratory experiments on the infaunal activity of intertidal nematodes
M. Steyaert, L. Moodley, J. Vanaverbeke, S. Vandewiele, M. Vincx 217–223

The predation impact of juvenile herring *Clupea harengus* and sprat *Sprattus sprattus* on estuarine zooplankton
J. Maes, M. Tackx, K. Soetaert 225–235

Water bird communities in the Lower Zeeschelde: long-term changes near an expanding harbour
E. Van den Bergh, T. Ysebaert, P. Meire 237–258

Flow hydrodynamics on a mudflat and in salt marsh vegetation: identifying general relationships for habitat characterisations
T.J. Bouma, M.B. De Vries, E. Low, L. Kusters, P.M.J. Herman, I.C. Tánczos, S. Temmerman, A. Hesselink, P. Meire, S. van Regenmortel 259–274

Short Note

Zooplankton in the Schelde estuary, Belgium and the Netherlands: long-term trends in spring populations
M. Tackx, F. Azémar, S. Boulêtreau, N. De Pauw, K. Bakker, B. Sautour, S. Gasparini, K. Soetaert, S. Van Damme, P. Meire 275–278
